MODBOX

- Wall-Mounted Design
- Precision-Built in CRCA / SS
- Single Door with 120° Opening
- IP65 Protection
- Ready-to-Install Mounting Plate
- Optional Inner Door & Accessories
- Customizable Sizes and Finishes

The MODBOX series is a welded wall-mounted enclosure engineered for strength, simplicity, and reliability.

Available in CRCA and stainless steel (SS304 / SS316), it offers a compact solution for control, distribution, and instrumentation applications.

Manufactured using automated fabrication processes, each enclosure ensures precision, consistency, and superior finish.

Standard sizes allow fast delivery, while customization options for material, color, and protection level meet varied project needs.

Designed for industrial control and power applications, MODBOX is trusted across sectors such as machinery, transport, pharmaceuticals, food processing, electronics, and renewable energy.

Design Features and Accessories

- Welded all-around construction ensures high mechanical strength and impact resistance (tested up to IK10).
- Single and double door configurations for compact or wider installations.
- 120° door opening with reversible orientation (LHS ↔ RHS) for flexible site installation.
- Door stiffener with pre-punched holes for easy mounting of door accessories or components
- Foamed-in PU gasket for long-lasting ingress protection (up to IP65).
- Gland plates provided at both top and bottom for simplified cable entry.
- Wall mounting brackets as per Modutec standards for secure and stable installation.
- Available in CRCA and Stainless Steel versions for varied environmental conditions.
- Optional accessories such as inner door, filter fans and limit switches, can be offered upon request.

Supply Includes:

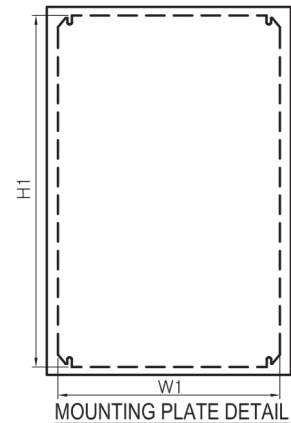

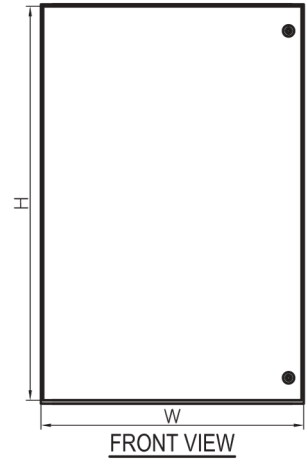

- Enclosure body
- Doors (single or double)
- Mounting plate – full or partial
- Gland plates – top and bottom
- Wall mounting brackets
- Accessories for inner door (if required)
- Customization on request
